# HOUSEHOLD FURNITURE.

The Furnishing of a House is an INDEX to CHARACTER and TASTE.

"Our Names are an expression of ourselves; their Furniture marks the character of us as their inhabitants, all sorts of Delicate Affinities establish themselves between us and the rooms in which we habitually live.

"Lights and Shades of Mood stamp the juxtaposition of mind and matter.

"Tendrils of habit make the Dweller and the house incorporate, and we ourselves are the spirit of the place.

"Life! I said, ending the peroration with a cheap epigram, 'Life should be the equilibrium between Beauty and Utility.'"

FRANCIS RIVERA, in *Yor Populi*.

Most of the Furniture in the following lists is manufactured at our Redfern Factories. By this method, while the quality of the materials and the best of workmanship is assured, the profits exacted by manufacturers who would otherwise supply the goods, is saved to the user.
